

## **Dr. Daggubati Sirisha**

<https://sirisha-engg-material.blogspot.com>

Dr. Sirisha Daggubati is a distinguished professional with over twenty one years of experience in industry, research, and academia. A graduate with honors in Electronics and Communication Engineering from Madras University, she has received numerous accolades for her innovative contributions to technology. Notably, she was awarded the "Certificate of Merit" in the DRDO Dare to Dream National Level Innovation Contest-2021 for her pioneering work in leveraging Data Driven Machine Learning Techniques for Aero Gas Turbine Engine. Furthermore, her prowess in academic discourse earned her the Computer Society India "Best Paper Presenter Award at international conference" for three consecutive years, from 2017 to 2019, a witness to her scholarly acumen and proficiency in disseminating cutting-edge research. Her expertise spans Image Processing, Computer Vision, and Machine Learning. As an Associate Professor at MVSR Engineering College, she shapes the next generation of engineers while actively contributing to consultancy projects with prestigious R&D organizations. Dr. Daggubati's research publications at

international conferences showcase her dedication to advancing the frontiers of knowledge and inspiring technological innovation.
